SYNEX INTERNATIONAL ANNOUNCES MILESTONE

Synex International Inc. announces that a company in which Synex has a significant holding, Coast Mountain Power Corp. (CDNX - MW), has received and accepted the Feasibility Study for the Forrest Kerr Hydroelectric Project. The proposed Forrest Kerr Hydroelectric Project, to be located in northern British Columbia, is expected to have a capacity of 100 MW and an estimated total project cost of \$195 million.

The acceptance of the Feasibility Study triggers the release of 482,949 shares of Coast Mountain Power Corp. to Synex Energy Resources Ltd., a wholly owned subsidiary of Synex International Inc. Synex Energy will then hold about 10% of the approximately 9 million issued and outstanding shares of Coast Mountain Power Corp.

Synex International Inc is a public company, trading on the Toronto Stock Exchange with three operating divisions covering: the development and operation of electrical generation facilities; the development and marketing of business intelligence and accounting related software products; and an engineering group providing services for the control and use of water, particularly hydro power.
